DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-7, drawn to a method for making an aluminum sputter target.

Group II, claim(s) 8-11, drawn to a method of sputter coating a flat panel display.

Group III, claim(s) 12-15, drawn to a sputter target comprising Al.

Group IV, claim(s) 16-17, drawn to a sputter target free of inclusions of the size of 800 μ m.

Group V, claim(s) 18, drawn to a sputter target free of inclusions of the size of 400 μ m.

Group VI, claim(s) 19-24, drawn to a method in a cathodic sputter coating system operating at a power density of 16 W/cm².

The inventions listed as Groups I-VII do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The special technical feature of Group I is adding Si to molten Al to form an alloy and filtering the alloy. There is no unity between Group I and Groups II-VI.

The special technical feature of Group II is a method of sputter coating a flat panel display. There is no unity of invention between Groups II and III-VI.

The special technical feature of Group III is a sputter target comprising Al. There is no unity of invention between Group III and Groups II and IV-VI.

The special technical feature of Group IV is a sputter target free of inclusions of the size of 400 μ m. There is no unity of invention between Group IV and Groups II, III, V and VI.

Art Unit: 1742

The special technical feature of Group V is a sputter target free of inclusions of the size of 800µm. There is no unity of invention between Group V and Groups II, III, IV and VI.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
